WELCOME TO SAGAFORM'S SPRING 2018 COLLECTION!

Sagaform has been helping to create good, loving relationships for nearly 25 years. We do this by offering carefully selected, smart, functional products in attractive packaging that are just as much fun to give as they are to receive – or even to buy for yourself. Through our collaboration with renowned designers, we can offer gifts with that little bit extra, which means they are well-received by most people, as they complement what they already have or perform a function they didn't even realise they would be really glad of.

Eating together – just like giving each other gifts – has, since the beginning of time, been a way of building strong relationships. From the start, Sagaform has combined these two great traditions by offering a range of products for the kitchen and dressed table.

We are now looking forward to spring and summer with all the fabulous high days and holidays and the opportunities they present for trips out with good food or beautifully dressed tables at home both indoors and out. The Sagaform Spring Catalogue is full of our existing popular products perfect for all these occasions along with lots of new, practical classics you will be using for many years to come.

Best wishes,

Anna Lilja
CEO Sagaform AB

THOUGHTFUL GIFTS

We work to create good, loving relationships.

We do this by offering carefully selected, well-designed, value-for-money gifts in attractive packaging that are just as much fun to give as they are to receive. We take a little extra care with the packaging of these ready-made gifts. So we don't just wrap them in tissue paper, as we do with all our products. We also provide a card and silk ribbon. So all you have to do is write a message, tie the ribbon and in an instant you have a very thoughtful gift.

Remove the sleeve – take out the decorations – write a greeting – tie the ribbon and attach the card – all done!

Cake server, gold

Stainless steel. Beautiful cake or pie slice for elegant serving. The irresistible curved design makes it as decorative as it is functional. Made of high quality stainless steel with gold-coloured plating.

SWEDEN

We have captured a genuinely Swedish feel in our Sweden series – symbols with which our rectangular country is inextricably linked.

What could be more Swedish than a Dala horse? Blue, red and yellow appear in this series of playful products containing items such as coasters, bowls and glasses. Perfect for anyone who, quite simply, wants to celebrate Sweden's heritage.

Dala horse serving bowl small

Stoneware. A bowl with a difference in the shape of a Dala horse. Works well for sweets or nuts and is a popular gift for tourists or for Swedes to take abroad with them.

Designer: Ylva Olsson

Art.No: **5016532**

Size: 160 x 140 x 45 mm

Minimum number: 6

Type of pack: Giftbox

Bowl Sweden, large

Stoneware. This bowl is a pleasure to cook in or to serve sweets or other nibbles to your guests in. Popular as a gift to give to guests on a visit abroad.

CLUB

Lounge music, a sociable hum and dimmed lighting. Sitting in a bar can quickly help us to unwind and enjoy the relaxing atmosphere – and it is this feeling of luxury we want in our homes too. Even though it isn't possible to recreate everything a bar can offer, the way in which drinks are served is an important element. It is for this reason that Sagaform has created a series of glasses, carafes and tools that belong to the bar.

YOU ARE INVITED

Club shot glass, 4-pack

Glass. These stackable shot glasses feature a decorative pattern. Although small they are a great weight with a nice heavy feel. Capacity 6 cl.

PICCADILLY

Piccadilly is the result of a collaboration between Pernilla Wahlgren and designer Ann-Carin Wiktorsson. The inspiration for the series comes from Pernilla's interest in food, her cooking and invitations to big dinner parties – social occasions that require generously proportioned dishes that are also highly functional and very versatile. Piccadilly provides both practical baking dishes and attractive servingware – all designed to create more beautiful, enjoyable get-togethers around a dressed table.

Piccadilly cake plate on foot, white

HOT DRINKS

The first cup of coffee of the day. Perhaps the best cup of coffee in the whole day. In the car, at the kitchen table at home, or during the first work meeting of the day. Wherever you are and however many cups of coffee and tea you drink in a day, it isn't just the contents that are important. Coffee always tastes so much better if you have a nice mug to hold.

Here at Sagaform we combine attractive designs with well-thought-through function.

The result is mugs and accessories that everyone would love to be given.

As winner of both the Formex Formidable Design Award 2014 and the Red Dot Design Award 2016, we are proud of this coffee jug. The awards confirm that it is not just aesthetically appealing, but also meets high ergonomic standards and has good heat-retaining properties. The man behind the thermal Accent coffee jug is talented industrial designer Gustav Hallén who has several awards in his portfolio.

reddot design award
winner 2016

Accent coffee pot

Polypropylene/glass. A great gift for those who love design and function. Accent won the Formex Formidable 2014 design award and the Red Dot Award in 2016 for its stylish looks and ergonomic design. The coffee pot is drip-free and stays warm for 6 hours. Two lids in different colours included.

ETHICS/ENVIRONMENT

A joyful world needs companies that take responsibility for the environment and ethics. We have an active CSR strategy which includes everything from reducing greenhouse gas emissions and recycling packaging to improving working conditions in the countries where our products are made.

SOCIAL RESPONSIBILITY AND OUR CODE OF CONDUCT

Sagaform does not own any factories. Instead we work with external suppliers who specialise in areas such as glass or ceramics. We demand that our suppliers abide by ILO conventions and work towards constant improvements when it comes to the environment and ethics. Our Code of Conduct includes requirements for minimum wages, regulated working hours and a ban on child labour. As active BSCI (Business Social Compliance Initiative) members, we work systematically with supplier inspections, dialogue and follow-up in order to ensure that our Code of Conduct is being complied with. All BSCI inspections are carried out by accredited third-party institutes in order to ensure independent monitoring. This provides quality control assurance for us, our suppliers and for our customers. We also have our own CSR staff in the New Wave Group's purchasing offices, who work full time visiting and supervising our suppliers to ensure that they take social and environmental issues into consideration during production. This forms the basis of good collaboration and better control of the production chain, which is an assurance for us.

LONG-TERM DIALOGUE

Some issues and challenges require collaboration at a higher level. That is why our CSR staff also work in forum and round-the-table discussions with other companies and international organisations. For example, several times a year, we take part in BSCI meetings together with other BSCI companies involved in areas ranging from clothing to food to technical. We also take part in Buyers Forum in Bangladesh, which is coordinated by the World Bank, and has included facilitating discussions with government representatives.

RECYCLING FOR A SUSTAINABLE SOCIETY

By sorting our waste, we can help to reduce environmental impact and create a sustainable eco-cycle. Sagaform takes responsibility for being a producer and pays the costs involved when customers hand in their packaging at collection stations for recycling. The Green Dot is international proof that our packaging is part of a recycling system. We think that feels good!

MORE ON THE ENVIRONMENT

Transport produces a large proportion of the world's greenhouse gas emissions. Transport by boat is generally the best alternative for goods that are shipped long distances and we try to avoid air transport as far as possible. Sagaform has two main strategies for reducing our impact on the environment from transport. We try to influence the shipping agents and transport companies we work with by participating in the "Clean Shipping Project" network. This network, which was founded in 2007, has created a tool that helps companies to evaluate various freight and shipping agents according to their environmental impact. This information can then be used during negotiations in order to pressurise agents to make environmental adaptations. We also consolidate all our shipments with our sister companies within the New Wave Group. In this way, we protect the environment from unnecessary journeys and half-filled loads by making sure containers and loads are always full.

OUR WORK ON CHEMICALS

Sagaform products should be safe and free from banned substances. That is why all our suppliers must follow the standards set out in the Group's chemical list. The list has been created to comply with current legislation, such as REACH and EU regulations on products that come into contact with foodstuffs, as well as taking recommendations from various industries into account. We are part of the Swerea Chemicals Group, through which we are party to all the latest information and developments concerning chemicals and regulations. We also carry out random checks and tests to make sure the products in our range live up to Sagaform's demands.

DO YOU HAVE ANY QUESTIONS ABOUT OUR CSR WORK?

Sagaform is part of the New Wave Group, which takes care of parts of our operative CSR work. You can read more about what we do on www.sagaform.com
